Minnesota Chiropractic Association Statement On the Tragic Attack on State Lawmakers

The Minnesota Chiropractic Association (MCA) is deeply saddened and

shocked by the violent attacks on Senator John Hoffman and Speaker-Emerita Melissa Hortman and their families.

Our thoughts are with Senator Hoffman and his wife, Yvette, as they recover from their injuries, and we extend our heartfelt condolences to the family of Melissa and Mark Hortman in the wake of this devastating loss.

Senator Hoffman has been a long-standing friend to the chiropractic profession in Minnesota. In 2014, he was the chief author of a pivotal Scope of Practice bill that helped modernize chiropractic care in our state. Throughout his time in office, he has demonstrated a deep commitment to public health and legislative integrity. We are grateful for his past support of the MCA and remain hopeful for his full recovery.

Speaker-Emerita Hortman was a trailblazer in Minnesota politics. She was known for her intellect, compassion, and unwavering service to the people of this state from both sides of the political aisle. Her leadership in the House from 2019 to 2025 shaped policy with a strong sense of equity and public good. Her tragic death—and that of her husband, Mark—is a loss that will be felt far beyond the Capitol.

This attack was not only an assault on these public servants and their families—it was an attack on the democratic institutions they faithfully served. We condemn this violence in the strongest possible terms and stand in solidarity with Minnesota's elected leaders and law enforcement as they respond to this senseless act.

On behalf of our members across Minnesota, the MCA expresses our deep sorrow, our gratitude for the service of these leaders, and our commitment to a future built on healing, resilience, and community.

MCA Leadership

Governor Walz proposed to terminate chiropractic care for MN Care and MA adults over 21 *and it passed on 6/9/2025.*

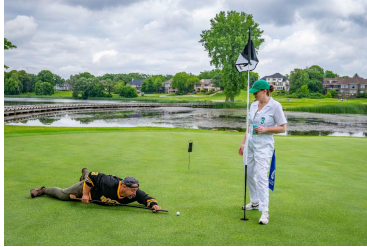

This will go in effect 1/1/2026.

Clinical Compass Update

March 12 | Clinical Compass

The Clinical Compass article “Cost of chiropractic versus medical management of adults with spine-related musculoskeletal pain: a systematic review” was recently named the “2024 Best Published” by the journal *Chiropractic and Manual Therapies*. The review, led by lead author Ronald Farabaugh, DC, who is chair of the ACA Research Advisory Board and also represents ACA on the Clinical Compass board, compares the costs of chiropractic versus medical care for the management of spine-related musculoskeletal pain in U.S. adults. Learn more about the review and see what else the Clinical Compass has achieved in the past five years in this [ACA Blog post](#).

National News

American Chiropractic Association (ACA) Coalition Calls for Fix in Congressional Reconciliation Bill

A provision in the recent U.S. House-passed One Big Beautiful Bill Act (H.R. 1) would increase the size of the 199A deduction and make it permanent. However, with small business healthcare practices defined as Specified Service Trade or Businesses (SSTB), there are concerns that a glitch in H.R. 1 that would limit the ability of SSTBs to deduct state and local taxes at the entity level, could have an adverse impact. Additionally, there are concerns that instead of lowering taxes, it could raise up to \$80 billion in new taxes on these and other small businesses. ACA, together with non-MD allies, are working with the congressional Doctors' Caucus and urging House and Senate leadership to address the glitch. Read the coalition letter [here](#).

VA Implements External Provider Scheduling for Community Care Providers

The Department of Veterans Affairs (VA) is implementing a faster way to schedule Veteran community care appointments with a new program called External Provider Scheduling (EPS). EPS uses a cloud-based technology that allows VA schedulers to book approved appointments directly into your system — at no additional cost to you. Available to ACA members, this innovative process simplifies the referral and scheduling process, eliminating the need for multiple phone calls and faxes to coordinate patient preferences, helping you focus on what matters most: patient care.
